

YAAPHA

Yaapha's mission is to address the needs of youth in providing safe, reliable and sustainable education regardless their economic status in Tanzania.

YAAPHA Tanzania - Culture and Crater

I'm Laura from Boulder , Colorado . Michigan State University . Our daughter (Caroline) had a blast in Tanzania! She just returned home and has lots of adventures to share with our family. She has a sincere appreciation of the little things, like electricity, hot and cold running water and a toilet in our house. What an experience for 17 days...with bucket showers, squatty potties and all the new and exciting foods she tried and enjoyed. She volunteered with YAAPHA since 11/01/2016 up to 27/01/2016, the culture program was very wonderful.

We love YAAPHA Tanzania from our Travel Consultant, DianaRose to all the exciting adventures that they will remember and enjoy for an entire lifetime. We would recommend YAAPHA Tanzania for all of your future trips, you will be so happy you chose this organization for your students. See the picture below :
