

YAAPHA

Yaapha's mission is to address the needs of youth in providing safe, reliable and sustainable education regardless their economic status in Tanzania.

I'm Nellie from Stockholm - Sweden. During my 4 weeks stay in Msaranga, Moshi in 2014, I got to be part of a variety of projects and other activities! I worked in the elderly home, with the cutest children & with fun Maasai friends all together with helpful staff! Amazing all in all!

Weekends were never boring as there were many excursions to choose from like going on safari, walking up the hillside of mount Kilimanjaro, visiting a coffee plant village, learning about the Chagga culture, etc. I filled my weekend with all above and enjoyed every minute of it!

I didn't know what to expect as working as a volunteer was totally new to me, but all in all I it surpassed all of what I could've expected. When I got back home to Sweden, where it was snow and cold weather, I still felt warm inside. I talked to and still talk to as many as possible about my experience. Anybody can do this! Single, in a family with kids, young or old. Just do it!
