

# YAAPHA

Yaapha's mission is to address the needs of youth in providing safe, reliable and sustainable education regardless their economic status in Tanzania.

## Unforgettable experience in Moshi, Tanzania (November 2016)

We are Andrea (Italy) and Alejandra (Spain) living in Barcelona. We wanted to do something different during our holidays, and after so many ideas, we decide to go to Tanzania and visit YAAPHA in Moshi, so, on that way we will learn so many things from them and, also, how we can help them from Spain.

Peter, from YAAPHA, was always available and so nice with us. He brought us to the public School, we spent few hours there at class, playing with the kids and also with the director of the school explaining us which one is the school and kids situation. From that moment we are cooperating with YAAPHA, and, for sure, it is not going to be the last time we went to Moshi, we cannot wait to come back. It is unbelievable how it can change your mind when you visit an NGO like YAAPHA and you can see how happy those kids are, this is the best you can get from anywhere.

We really recommend such a big experience, even if you just go one day to visit them, it is something it will change you.

*Thank a lot to Peter and thanks to YAAPHA for giving us the opportunity to meet each other!*
